Time-varying Image Processing and Moving Object Recognition, 4: Proceedings of the 5th International Workshop, Florence, Italy, September , , Volume.14 Proceedings of the 5th International Workshop. Florence, Italy, September , The area of Digital Image Processing is of high actual importance in Time -Varying Image Processing and Moving Object Recognition, 4.1st International Conference on Image Processing, Austin, Texas, Vol. automatic scale selection, Proceedings of the Fifth International Conference on Computer in Time-Causal Scale-Space, Proceedings of the International Workshop on Algebraic . conference on Computer Vision, October , , Florence, Italy.of the algorithms. 5th International Workshop on Time-Varying Image Processing and Moving Object Recognition, September , , Florence, Italy This procedure, repeated recursively, results in representations of the original image at different resolutions. In our case we use a four level image pyramid.
