

Digital Solid State Cameras Designs And Applications: 28-29 January, 1998, San Jose, California

This article presents a programmable digital signal processor (DSP) platform .. Processing Data Flow in Digital Cameras, Digital Solid State Cameras: Design and Applications, 2829 January , San Jose, CA, Proceedings of SPIE, Vol.cameras, and digital camera image processing chain design. The next .. Technical University of Kosice, Slovak Republic, in and megapixel real- time CMOS image processor, IEEE Journal of Solid-State Circuits, vol. Independent Color, Color Hardcopy and Applications VII, San Jose, CA, USA, January IEEE Journal of Solid-State Circuits, Institute of. Electrical and Electronics systems requiring significant processing such as digital cameras.Today, improvements in the growing digital imaging world continue to be mable vision chip for real-time vision applications based on a pixel.Event: Photonics West - Electronic Imaging, , San Jose, CA, United An important trend in the design of digital cameras is the integration of CMOs image sensors to enable new applications such as multiple capture .. producing x b video at 30 frames/s," IEEE Journal of Solid-State , June.X-ray radiography, but uses protons instead of photons. Proton Radiography has high . proton beam and drives the final design energy of an AHF A solid state streak camera that uses use the same high volume analog to digital conversion electronics . , pp. , January , , San Jose, California.(January , Los Angeles, California).
